

SYSTEM'S OBJECTIVES

- Digitize scheduling
- Secure Access
- Optimize Energy
- Provide Real-Time Visibility

ABOUT

The Smart Classroom Booking System (SCBS) modernizes campus management using a Laravel-based platform, ESP32 microcontrollers, and PIR sensors to automate scheduling, improve QR-based security, and reduce energy waste.

MAIN ISSUES

**Manual
Inefficiency**

**Unauthorized
Usage**

**Energy
Wastage**

**Information
Gaps**

SMART CLASSROOM

BOOKING SYSTEM

" Enhancing Campus Sustainability
through IoT Integration "

BENEFICIAL IMPACTS

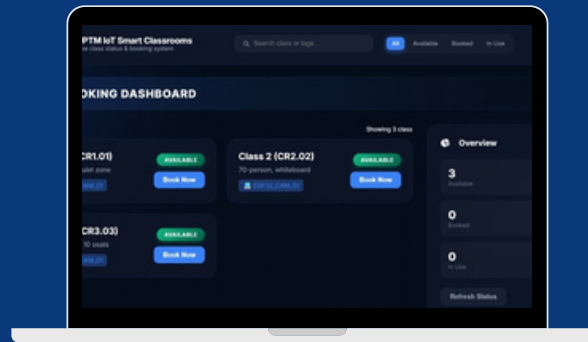

- Resolve any double-booked & any delays
- Cost Optimization
- Improves security
- Digitizes Campus
- Implementing Sustainability

**NO MORE
LAST-MINUTE
BOOKINGS
WITH SCBS**
